DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-11 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest one or more of the limitations found in independent claims 1 and 7. U.S. Patent No. 5,714,961 to Kot et al., U.S. Patent No. 6,097,345 to Walton, U.S. Patent No. 6,329,950 to Harrell et al., and U.S. Patent Application Publication No. 2001/0050651 to Grangeat et al. all teach prior art antenna systems. However, with respect to independent claim 1, the prior art of record fails to teach or suggest the combination of a radiation element provided on a dielectric substrate; and a grounding conductor surrounding a periphery of an outer edge portion of the radiation element at a position spaced away outwardly from the outer edge portion; and an inner cut-out portion completely surrounded by an inner periphery of the radiation element, wherein an entire inner area defined by an outer boundary of the inner cut-out portion exposes the dielectric substrate therethrough. With respect to independent claim 7, the prior art of record fails to teach or suggest the combination of a radiation element provided on a dielectric substrate; and a grounding conductor surrounding a periphery of an outer edge portion of the radiation element at a position spaced away outwardly from the outer edge portion; wherein the radiation element has an inner cut-out portion exposing the dielectric substrate therethrough, wherein the

radiation element is a substantially quadrangular film having two pairs of opposing corner portions, and wherein one pair of the opposing corner portions is cut to form substantially linear perturbative portions. Therefore, independent claims 1 and 7, as well as all respective dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Communication Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leith A. Al-Nazer whose telephone number is 571-272-1938. The examiner can normally be reached on Monday-Friday, 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Don Wong can be reached on 571-272-1834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
